

WIRELESS HD WIFI DIGITAL CAMERA 110°

MODEL

3087171

PRODUCT DESCRIPTION

Exolöf offers a robust wireless WiFi-camera with digital HD quality that is suitable for various applications such as a rearview system or surveillance of machinery or farm animals. Just simply connect the camera via WiFi to your smartphone or tablet and you are ready to go. This set-up saves time compared to a more traditional installation and the possibility to connect to different cameras makes it convenient. Transmitting distance is 60 meters.

TECHNICAL DATA

Input voltage	10-32 V DC
Image device	1/3 CMOS
Effective pixels	1280x720
Minimum illumination	0.1 Lux (Day) 0 Lux (with IR)
Nightvision distance	IR 8-10 meters
For reciver	Tablet or Smartphone
WiFi	2,4-2,4385 GHz
White balance	Auto
BLC	Auto
Transmitting distance	60 meters
Bit rate	11 Mbps
Weight	0,5 kg
Microphone	Yes
Temperature	-20 to +70 °C
IP Classification	IP69K
Time delay	200 ms
