

EXOLÖF ANGLED WALLMOUNT

MODEL

1570932

PRODUCT DESCRIPTION

Exolöf angled wallmount used for installation of exterior light on the corners of a building. The mount is made of 3mm steel sheet and tubing with a black powdercoating as finish, to withstand the outdoor environments. The mount is designed for easy assembly of the light where there is a 90 degree angle, for example a corner of a building. There is a gap in the back , leaving space for cabling when installing the mount in 90 degree angles.
