## Monitor 7" RLED

### Safety

In order to guarantee safe operation, these safety instructions must be read before you start using this equipment.

- Do not open the enclosure. This can cause damage, short-circuiting or electrical shocks.
- Do not expose the equipment to extreme temperatures. This can cause deformation of the enclosure or damage to internal components.
- Repairs may only be made by the manufacturer.
- The equipment must be installed as shown in this manual.

Before you start using this equipment, please read this manual carefully and follow all instructions. This installation manual describes the installation of the equipment, outlines the connection options and explains how to put the equipment into operation. We recommend that you keep this manual in a safe place for reference purposes.

If you have any questions or issues concerning the operation of this equipment, consult the relevant section in the manual or contact the Orlaco Products BV Service department.

All data subject to change without notice. All dimensions are for commercial purpose only. The camera/display systems from Orlaco comply with the latest CE, ADR, EMC and mirror-directive regulations, where applicable. All products are manufactured in accordance with the ISO 9001 quality management system, IATF 16949 quality automotive, ISO 14001 environmental management systems, where applicable.

**Do not apply voltage to the output power of the monitor!**

## 1. Monitor placement

The correct placement of the monitor depends on the type of the vehicle. Please take note of the following guidelines when installing the monitor.

### Obstruction of the field of vision

The monitor must be placed in such a way that the field of vision of surrounding traffic and the work area is obstructed as little as possible.

### Obstruction of the operation

The monitor may not obstruct the basic operation (the handling of the operation functions and the field of vision on the dashboard) within the vehicle.

The placement of the monitor may not hinder the driver when getting in or out of the vehicle.

Viewing distance

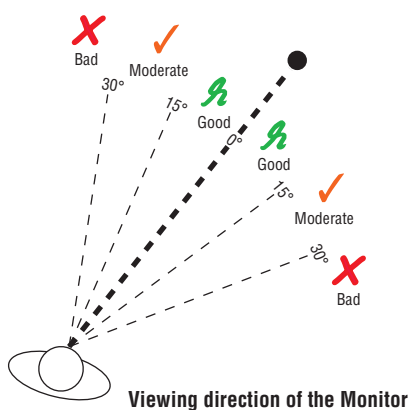

View point on the Monitor

View point on the Monitor

Posture

Viewing direction of the Monitor

## 2. Basic system installations

### One Camera System

### Two Camera System

### Three Camera System

### Four Camera System

## 2.1 Electromagnetic compatibility installation instructions (EMC).

### Preferred installation

Installation especially for forklifttrucks.

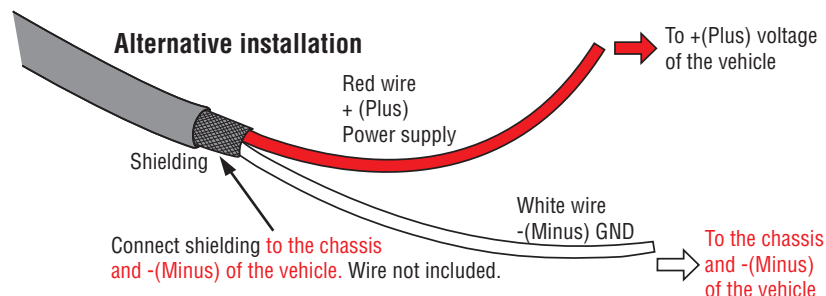

**Warning!** On vehicles with separated powerwiring like electrical forklifttrucks no other installation is allowed, the shielding may **NOT** in any way be connected to the battery:

Color/wire	Function	Vehicle connection:
Red wire	+(plus) power supply	+(plus) voltage of the vehicle (10..60V/Dc, 5A fuse)
White wire	-(minus) GND power supply	-(minus) of the vehicle
Shielding powercable	Eliminates EMC disturbances	Chassis of the vehicle

### Alternative installation

If no separate 0V/minus is available on the vehicle and the minus of the battery is connected to the chassis of the vehicle; connection is as follows:

Color/wire	Function	Vehicle connection:
Red wire	+(plus) power supply	+(plus) voltage of the vehicle (10..60V/DC, 5A fuse)
White wire and Shielding powercable	-(minus) GND power supply and EMC	Chassis of the vehicle combined with -(minus) of the vehicle

## 4. Technical specifications

Type	Automotive 7inch TFT liquid crystal display module LED backlight.
Resolution	WVGA 800xRGBx480 pixels.
Viewing	70° horizontal and 60° vertical (@ CR≥10).
LED Life Time	30000 Hrs.
Typical performance	Center luminance of white: 600cd/m2, Contrast ratio 650:1, Response time 5 ms (Tr).
Software menu **	Full On-Screen-Display (OSD) functionality in 15 languages: English, Dutch, German, French, Czech, Hungarian, Italian, Polish, Portuguese, Spanish, Turkish, Swedish, Finnish, Danish, Norwegian.
ABC mode	Improved Auto Brightness Control (ABC) including one-touch day/night setting and adjustable minimum and maximum levels for automatic control.
Operating temperature	-40°C ..+85°C.
Storage temperature	-40°C ..+105°C.

### Electrical \*

Input voltage range	12...60V +/-10%.
Power consumption	Max 12W (only for the monitor, total power consumption depending on cameras and other peripherals).
Protection	>70V overvoltageprotection, <10V undervoltageprotection, protected against loaddumps, spikes and surges, reverse polarity on all wiring.
Power-output	Nominal 2A +/-10% for powering cameras and other peripherals.
Video input	1Vtt, 75Ω, Pal 50 Hz, 4,43MHz color sub carr. NTSC 60 Hz, 3,58MHz color sub carr.

### Mechanical

Surface	Hard coating (3H), with AG LR (Low Reflection) polarizer.
UV Resistance	Exposure to intense direct sunlight (UV radiation) may increase the degradation of the display.
Housing	Color Black, material: aluminium & high impact automotive synthetic thermoplastic polymer.
Shock constancy	Shock and vibration resistant for usage on trucks, cranes, fork-lifts, maritime applications, machinery. Random vibration test 9,73Grms at frequency: 5 to 2000, PSD (g <sup>2</sup> /Hz) 0,015 to 0,10.
Ingress protection	IP67 according IEC 60529 (dust tight, immersion in water up to 1m for 30 min).
Truck use	Withstand all fluids and materials used in and around trucks like: ammonia solution 5%, ethanol 80-100%, isopropanol 5-10%, soapy water (min. 50% soap per volume), alkaline degreasing compounds(used in high pressure washing equipment).

### Certification

Quality & environment	Units are manufactured by Orlaco in the Netherlands; ISO 9001, ISO14001, ISO-TS16949.
Approvals	Approvals in compliance with all relevant EMC- and Automotive directives. Certificates available upon request. This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Green Passport	All materials are compliant to Green Passport requirements according IMO resolution MEPC.197(62) as adopted on 15 July 2011 (Maritime sector: International Maritime Organization concerning the functions of the Marine Environment Protection Committee).

## \*Different specifications for the Serial Monitors

### Electrical

Input voltage range	18...30V +/-10%.
Power consumption	Max 12W (only for the monitor, total power consumption depending on cameras and other peripherals)
Protection	>70V overvoltageprotection, <10V undervoltageprotection, protected against loaddumps, spikes and surges, reverse polarity on all wiring.
Power-output	For powering cameras and other peripherals. Power-output = input voltage. Output current 2A max.
Video input	1Vtt, 75Ω, Pal 50 Hz, 4,43MHz color sub carr. NTSC 60 Hz, 3,58MHz color sub carr.

## \*\* Software menu

For the Radar Monitor Art. no. 0208871 and 0209110 applies; Software Menu Full On-Screen Display (OSD) functionality in 8 of languages: English, Dutch, German, French, Italian, Polish, Spanish, Swedish.

## 5. Back plate RLED

### 5.1. Backside Monitor 7" RLED

Back plate with 11 x M5 threaded holes, thread length 8 mm.  
Make sure to tighten the screws according torque 2.0 Nm.

Note by reassembly: Make sure to tighten the screws according torque 0.25 Nm / 35.4 ozf-in.

### 5.2. Cable connection downwards or upwards and changing cable.

First decide if you want to use a downward or upward connection.

1. Position of the JST connector for a downward connection. Please note that the wires are not twisted.
2. The position of the JST connector for an upwards connection. Turn the JST connector clockwise. Please note that the wires are not twisted.

## 6. Assembly, connections and data RLED

Article number: 0208500

### Cables / Connectors

0,24m multicable (power) with 5p male connector, 0,29m multicable (video) with 4p female connector Art. no.: 8976741.

### Bracket

Anodized aluminium adjustable mounting bracket is supplied. Art. No. : 8974000.

### Weight

1,6kg (Monitor, bracket, cables and connectors).

Solder side 5p male connector: (Secure the power input with a 5A fuse)

- 1 = Red = Power input: 12...60V/DC
- 2 = White = Power input: 0V
- 3 = Blue = Cam No. 1 activated at 7...60V/DC\*
- 4 = Brown = Cam No. 2 activated at 7...60V/DC\*
- 5 = White/Yellow = Cam No. 3 activated at 7...60V/DC\*
- 6 = Grey = N.C.
- 7 = Yellow = N.C.

\*Triggers camera >7V/DC and returns to non triggered <5V/DC.

If multiple cameras are triggered the highest cam. no. has the highest priority.

Solder side 4p female connector:

- 1 = Coax core = Video in
- 2 = Coax shielding = Video 0V
- 3 = Red = Power output: 12V/DC
- 4 = Black = Power output: 0V
- Shielding = Ground

Back side

Connectors fixed on the back side of the monitor.

### Connect instructions:

Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

### User instructions:

Please refer to User manual no: UM0972080 for operation.

Article number: 0208520

## Cables / Connectors

6m multicable (power) with 8p male IP67 PG7 AU, 6m cable (video) with 7p female IP67 GOLD 423 connector. Art. No.: 8976251.

## Bracket

A clamping user-adjustable mounting bracket is supplied, Art. No. 2015500.

## Weight

1,9kg (Monitor, cables and connectors).

## Use

Suitable for open-cabin, drive-in/drive-out cold store use.

Solder side 8p male: (Secure the power input with a 5A fuse)

1 = Red	= Power input: 18...30V/DC
2 = White	= Power input: 0V
3 = Blue	= Cam No. 1 activated at 7...30V/DC*
4 = Brown	= Cam No. 2 activated at 7...30V/DC*
5 = White/Yellow	= Cam No. 3 activated at 7...30V/DC*
6 = Grey	= Cam No. 4/Speedometer/Tachograph/Zoom in
7 = Yellow	= Parking Brake (only Front Cam)/Zoom out.
8 = N.C.	

\*Triggers camera >7V/DC and returns to non triggered <5V/DC.  
If multiple cameras are triggered the highest camera number has the highest priority.

Solder side 7p female connector:

1 = Coax core	= Video in
2 = Coax shielding	= Video 0V
3 = Red	= Power output: equal to "Power input"
4 = Black	= Power output: 0V
5 = Orange	= RS232 Rx
6 = Yellow	= RS232 Tx
7 = Grey	= RS232 Rx & Tx 0V

back side

cable connection upwards

Note by reassembly: Make sure to tighten the screws according torque 0.25 Nm / 35.4 in.ozf

## Connect instructions:

Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

## User instructions:

Please refer to User manual no: UM0972080 for operation.

# Installation manual

Article number: 0208642

## Cables / Connectors

2m multicable (power) open wired, 2m Y-cable (video) with two 4p female IP67 PG7 AU connector. Art. No.: 0303781

## Bracket

Anodized aluminium adjustable mounting bracket is supplied. Art. No. : 8974000

## Weight

1,7kg (Monitor, bracket, cables and connectors)

Aansluiting aan de monitor: (Zeker de voedings ingang met een 5A zekering)

- |              |   |
|--------------|---|
| 1 = Rood     | = Voedings ingang: 12...60V/DC          |
| 2 = Wit      | = Voedings ingang: 0V                   |
| 3 = Blauw    | = Cam nr. 1 geactiveerd bij 7...60V/DC* |
| 4 = Bruin    | = Cam nr. 2 geactiveerd bij 7...60V/DC* |
| 5 = Wit/Geel | = Cam nr. 3 geactiveerd bij 7...60V/DC* |
| 6 = Grijs    | = CAN H                                 |
| 7 = Geel     | = CAN L                                 |

\*Camera schakelt in >7V/DC en schakelt weer uit <5V/DC.

Als er meerdere camera's worden geactiveerd; het hoogste cameranummer heeft de eerste prioriteit

Soldeerzijde 4p vrouwelijk connector:

- |                      |                            |
|----------------------|----------------------------|
| 1 = Coax kern        | = Video in                 |
| 2 = Coax afscherming | = Video 0V                 |
| 3 = Rood             | = Voedings uitgang: 12V/DC |
| 4 = Zwart            | = Voedings uitgang: 0V     |
| Afscherming          | = Aarde                    |

| 2 = Brown        | = Cam 2 activated at 7...60V/DC*          |
| 3 = White/Yellow | = Cam 3 activated at 7...60V/DC*          |
| 6 = Grey         | = Cam 4 activated at 7...60V/DC*          |
| 7 = Yellow       | = Parking Brake (only Front Cam)/Zoom out |

\*Triggers camera >7V/DC and returns to non triggered <5V/DC.

If multiple cameras are triggered the highest camera number has the highest priority.

## Front side 4p molded female connector:

- |                    |                        |
|--------------------|------------------------|
| 1 = Coax core      | = Video in             |
| 2 = Coax shielding | = Video 0V             |
| 3 = Red            | = Power output: 12V/DC |
| 4 = Black          | = Power output: 0V     |
| 5 = Orange         | = N.C.                 |
| Shielding          | = Housing              |

## back side

## Connect instructions:

Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

## User instructions:

Please refer to User manual no: UM0972080 for operation.

# Installation manual

**Article number: 0209300**

<b>Cables / Connectors</b>	1,2m multicable (power) with Deutsch male connector, 1,4m multicable (video) with 4p molded female connector. Art. No.: 1001391
<b>Bracket</b>	User-adjustable mounting bracket with clamp; Art. No.: 2015800, 2015750 and 2015950 is supplied.
<b>Weight</b>	2,1kg (Monitor, bracket, cables and connectors)
<b>Use</b>	Suitable for open-cabin, drive-in/drive-out cold store use.

**Connect instructions:** Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

**User instructions:** Please refer to User manual no: UM0972080 for operation.

# Installation manual

**Article number: 0209310**

**Cables / Connectors**

0,24m multicable (power) with 8p male connector, 0,29m multicable (video) with 4p female connector Art. no.:1001409

**Weight**

1,5kg (Monitor, cables and connectors)

Solder side 8p male connector: (Secure the power input with a 5A fuse)

- 1 = Red = Power input: 12...60V/DC
- 2 = White = Power input: 0V
- 3 = Blue = Cam No. 1 activated at 7...60V/DC\*
- 4 = Brown = Cam No. 2 activated at 7...60V/DC\*
- 5 = White/Yellow = Cam No. 3 activated at 7...60V/DC\*
- 6 = Grey = N.C.
- 7 = Yellow = N.C.
- 8 = = N.C.

\*Triggers camera >7V/DC and returns to non triggered <5V/DC.

If multiple cameras are triggered the highest cam. no. has the highest priority.

Solder side 4p female connector:

- 1 = Coax core = Video in
- 2 = Coax shielding = Video 0V
- 3 = Red = Power output: 12V/DC
- 4 = Black = Power output: 0V
- Shielding = Ground

Back side

Connectors fixed on the back side of the monitor.

**Connect instructions:**

Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

**User instructions:**

Please refer to User manual no: UM0972080 for operation.

**Article number: 0209400**

**Cables / Connectors**

4m multicable (power) with 8p male Deutsch connector, 4m multicable (video) with 4p female molded M16 connector. Art. No.: 8976433.

**Bracket**

Ball joint with mounting plate Art No. 2015750 is supplied (for adjustable bracket 2015800 or 2015510).

**Weight**

1,6kg (Monitor, cables and connectors).

**Use**

Suitable for open-cabin, drive-in/drive-out cold store use.

**Connect instructions:**

Please refer to your Orlaco system documentation or chapter 2. "Basic System Installations"

**User instructions:**

Please refer to usermanual no: UM0972080 for operation.

## 7. Maintenance and cleaning

First, do not touch the screen with your fingers. The underlying transistors will react to the static electricity in your fingers, or may get damaged by the pressure thus exerted. This will eventually produce dead pixels; tiny, inoperative, or colored dots impairing picture quality.

So take care when cleaning your delicate LCD Screen. Use a high quality and safe foam cleaner and a soft cloth. Do absolutely not use aggressive chemicals or abrasive cleaning agents.

## 8. Disposal

Disassembly, removal and disposal. Local regulations for dealing with waste must be followed when disposing of disassembled components or entire units.

## 9. General terms and conditions

Orlaco Products BV is not liable for damage resulting from inadequate servicing, incorrect usage or alterations made to the equipment without informing the manufacturer in writing.

This installation manual has been made available by Orlaco Products BV. All rights reserved. No part of this manual may be reproduced and/or made public in printed form, in photocopy form or on microfilm, or in any other way, without the prior written permission of Orlaco. This also applies to the associated drawings and figures.

Orlaco reserves the right to make changes to components at any time without informing customers beforehand or directly. All dimensions given are for commercial purposes.

For information regarding repairs that is not covered in this manual, please contact the Orlaco Products BV service department.

This manual has been prepared with all due care and attention.

However, Orlaco Products BV cannot be held responsible for any errors in this manual or any consequences thereof.

## 10. Version details

**Version R1-0.** First issue, November 2012.

**Version R1-1.** Monitor added page 9, November 2012.

**Version R1-2.** Monitors added pages 22, 25 December 2012.

**Version R1-3.** Monitor added page 10. Change electrical connections; Art. No 0208871, page 24, March 2013.

**Version R1-4.** Cable length changed; Art. No. 0208831, page 23

**Version R1-5.** Monitor added page 26, September 2013.

**Version R1-6.** Monitor added page 10, January 2014.

**Version R1-7.** Monitor added page 30, January 2014.

**Version R1-8.** Monitor added page 11, February 2014.

**Version R1-9.** Monitor added page 25, March 2014.

**Version R2-0.** Monitor added page 11, July 2014.

**Version R2-1.** Monitor changed page 11, September 2014.

**Version R2-2.** Barcode added, September 2014.

**Version R2-3.** Drawing dimensions page 29 changed, December 2014.

**Version R2-4.** Torque added at text chapter 5, January 2015

**Version R2-5.** Chapter 4, Specifications adjusted, April 2015.

**Version R2-6.** Chapter 5, Torque data changed, November 2015.

**Version R2-7.** Monitor added page 32, January 2016.

**Version R2-8.** Monitor page 32 Bracket changed, July 2016.

**Version R2-9.** Art. No. 0208632, 0208691 and 0208871; cable changed, August 2016.

**Version A 01.** Monitors Art. No. 0208702 and 0208712 deleted, December 2016.

**Version A 02.** Monitor Art. No. 0209190 weight modified + Manual number adjusted, February 2017.

**Version A 03.** Monitors added page 31,32, March 2017.

**Version A 04.** Art. No. cables changed page 19, 20, 25, April 2018.

**Version A 05.** Other Art. no. cables changed, June 2018.

**Version A 06.** Tightening torque changed, chapter 5, August, 2018.

**Version A 07.** Monitor added page 33, March 2020.

**Version A 08.** Copyright text added, March 2021.

**Version A 09.** Specifications changed, July 2021.

Orlaco is a Manufacturing company that specializes in making cameras and monitor systems for commercial vehicles, fork-lift trucks, cranes, off shore and maritime.

Our objective is to design and produce camera systems for the professional market that improve the drivers' view and increase operating efficiency.

At our facility in Barneveld we locate our design, manufacturing, warehousing and service department.

Vision is our mission®. Orlaco therefore deploys the development, manufacture, supply and service of camera and Monitor systems that will improve safety and efficiency of all vehicles, machinery and vessels. Our systems give the end user a view on each blind spot and will create comfort and improved working conditions. Our active approach will support market demands and innovations and will lead to enthusiastic ambassadors in the market; our customers.
