

PLT

THERMAL TRANSFER PRINTABLE LABELS AND WRAP-AROUNDS

- Polyester label rolls with acrylic adhesive for thermal transfer print.
- Ideal choice as a general all-purpose label marking. Used for component and all purpose markings in electronic and electrical applications.
- Wrap-around label used for cable marking
- Less waste and cost when fewer quantities are needed at any one moment.
- Excellent resistance to isopropyl alcohol, oil and water.
- UL recognized for indoor/outdoor use.

General information

Design

PLT is a series of labels primarily for thermal transfer printing. Its material is UL approved self adhesive polyester.

PWT is a adhesive, self-laminating and printable wrap-around label. Its material is UL approved MT310 transparent polyester.

The additional transparent part is wrapped around the cable and laminates the print field and protects the marking against chemicals and wear.

Technical information

Material

UL approved polyester with acrylic based permanent adhesive.

UL approved MT310 transparent polyester with acrylic based adhesive (wrap-around)

Printing

Printable in recommended standard thermal transfer printers with standard label design software.

Temperature

Service temperature range: -40°C to +150°C (-40°F to +302°F).

Minimum application range: +10°C (+50°F).

Storage stability: Two years stored at +21°C (+70°F) and 50% relative humidity (RH).

Resistance

UL code PGGU2.

Excellent resistance to isopropyl alcohol, oil and water.

Colours

PLT: yellow, silver, white

PWT: yellow, white

Thermal transfer labels, polyester

Labels for product- and part marking.

Roll. Each row has one or three labels. Matt surface.

Core diameter 38 mm (standard) or 76 mm.

Material: polyester Colour: yellow, silver, white.
