EU RoHS Declaration Update

Dear Sirs and Madams,

EU RoHS (= Restriction of (the use of certain) Hazardous Substances in electrical and electronic equipment) prohibits as an EU internal market directive the use of the substances listed below for the manufacturing and processing of electrical and electronic equipment and components if the specified limit value is exceeded (taking permitted exemptions into account, see below).

The current EU RoHS is based on Directive 2011/65/EU of the European Parliament and the delegated Directive 2015/863/EU and is also known as "RoHS 3". With Directive 2015/863/EU, the six existing substances have been extended by additional four, the Phthalates:

- Lead (0.1%)
- Mercury (0.1%)
- Cadmium (0.01%)
- Hexavalent Chromium (0.1%)
- Polybrominated Biphenyls (PBB) (0.1%)
- Polybrominated Diphenyl Ethers (PBDE) (0.1%)
- Bis(2-ethylhexyl) Phthalate (DEHP) (0.1%)
- Butyl Benzyl Phthalate (BBP) (0.1%)
- Dibutyl Phthalate (DBP) (0.1%)
- Diisobutyl Phthalate (DIBP) (0.1%)

"RoHS 3" will take effect on the 22nd of July 2019, except for products of EU RoHS Category 8+9 → <https://www.rohsguide.com/rohs-categories.htm> where this deadline has been extended for two years. According to our present level of awareness and based on the feedback of our own suppliers so far, we hereby declare to the best of our knowledge and belief that STEGO products comply at that stage with the current EU RoHS Directives. The allowed exemptions 6(a), 6(b) (respectively 6(a)-I, 6(b)-I, 6(b)-II based on EU RoHS exemption change in June 2019), 6(c), 7(a) and 7(c)-I according to RoHS 2011/65/EU Annex III are hereby applied for Lead (Pb), CAS no. 7439-92-1.

If you have any further queries in this context, please do not hesitate to contact us.

Best Regards,

STEGO Elektrotechnik GmbH
